

Connecting People with Nature
through Science and the Arts

20 Years Celebrating Nature & the Environment through Photography Artists: MONEP Members

Art Exhibit Dates: September 18- November 13, 2015

Opening Reception: Wednesday, September 23 6:00-7:30pm

In celebration of our 20th anniversary, the artistic point of view of two dozen members of the *Missouri Nature and Environmental Photographers* has been represented through this exhibit. Images were selected from a cross section of our membership that includes new members, advanced amateurs, professional photographers and even a few founding members. MoNEP members of all levels share a common passion for photography, nature and the environment. We hope you will enjoy this anniversary exhibit as much as these photographers have enjoyed capturing the beauty, color and patterns of the special places, plants and creatures that have caught their eye.

MoNEP is based in St. Louis and currently meets at the Ethical Society in Clayton. Meetings are generally held on the third Tuesday of the month at 7 pm and feature speakers who are experts in photography, conservation and/or the environment. We hope you will have the opportunity to be a guest at one of our meetings or to attend our next bi-annual photography seminar. Please visit www.monep.org for more information.

The mission of the Missouri Nature and Environmental Photographers is to provide a forum for individuals interested in the field of nature photography and the environment, provide education, gather and disseminate information, and promote nature photography as an art form and medium of communication.
